

Addendum to the Final Statement of Reasons:

The following non-substantive amendments have been made to the Rulemaking File 03-0916-05S:

1. Sections 125.04 and 125.08 have been deleted from this rulemaking since no changes were made to those sections.
2. Section 125.06: The word “[Reserved]” was added and deleted as part of the title so the printer would remove it.
3. Section 125.12: “(G)” was underlined in subparagraph (H) to indicate an addition.
4. Section 125.12: The cross-reference in the last line of the section contained a typographical error. The reference should have read 125.12 (c) (4).
5. Section 125.22 (b): “Shall” was inadvertently changed to “may” in the Express Terms. This has been returned to the correct language.

Government Code Section 11346.3 Requirements: If the requirements of these regulations are found to require a report from businesses; the department has found that it is necessary for the health, safety, or welfare of the people of the state that the regulation apply to businesses.

Clarification: The Mailing Notice Statement and Date document in Tab 4 is not the statement for this rulemaking file. The correct statement has been added to the file.
